Organization

Deputy 2 of Public Relations | Badan Eksekutif Mahasiswa Fasilkom UI Jul 2025 - Jan 2026

- Managed a cross-functional team to develop and implement Standard Operating Procedures (SOPs) for social media publications, ensuring workflow efficiency and consistency.
- Co-organized and executed the inaugural launch event for the new board, successfully managing logistics and coordination to achieve the engagement of 150+ participants.

Person in Charge of Public Relations | Bimbingan Belajar Gratis Fasilkom UI Nov 2024 - Jun 2025

- Produced and launched 10+ content pieces with a cumulative reach of over 330k views, significantly boosting visibility and impact.
- Successfully grew BETIS Fasilkom UI's Instagram followers by over 3,000, driving sustained audience engagement and community growth.

Expert Staff of Public Relations | Open House Fasilkom UI Jul 2024 - Nov 2024

- Coached 18 staff members to enhance their public speaking skills through training and feedback.
- Established partnerships with over 80 schools across Indonesia for "Fasilkom Goes to School"

Staff of Direct Marketing | COMPFEST Apr 2024 - Nov 2024

- Created marketing content that garnered over 200,000 total views across multiple platforms.
- Served as Master of Ceremony for key COMPFEST events, featuring renowned guests such as Adhitia Sofyan.

Project

Lapo Marpaung (E-Commerce Mock Up) | Group Project

- Developed a web-based e-commerce platform and food marketplace for a fictional restaurant, featuring comprehensive digital menus and seamless transaction processing.

AngkringanPedia (E-Commerce Mock Up) | Group Project

- Designed and built a web-based e-commerce application aimed at discovering local street food (angkringan) spots, including interactive food spot cataloging, category filtering, and a community review system.

Pet Clinic (Pet Clinic Information Systems Website) | Group Project

- Developed a web-based clinical information system featuring role-based access control to optimize workflows for doctors, nurses, and clients, with tracking and monitoring modules of pet health status and medical conditions.

PaxelLMS (Knowledge Management System Website) | Group Project

- Created a Figma prototype for an organizational Knowledge Management System, integrated advanced features including an AI chatbot, expertise locator, SOP repository, and collaborative discussion forums.

KasirKu (Canteen Information Systems Website) | Group Project

- Designed an ICT4D Figma prototype tailored for canteens across Universitas Indonesia focused on empowering local vendors by streamlining income tracking and fostering digital literacy.

NiHao (Chinese Language Learning App) | Group Project

- Developed "NiHao," a mobile application prototype using Figma aimed at interactive Chinese language learning. Incorporated engaging features such as learning paths, quizzes, forums, and media integration.
